-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 5-23 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim can not depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5-23 not been further treated on the merits.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grim '602.

Grim discloses in figures 1-18 a splint comprising at least one rigid globally concave shell 18, a chamber 24 made of a flexible plastic (plastic film), a means (34, 36), of holding the shell in position, the shell includes a flexible area 95, made from rubber, vinyl or synthetic rubber, the shell is made of polypropylene copolymer, and is rigid in the central part and flexible along each longitudinal edge. However, Grim doesn't disclose the flexible area being made of styrene ethylene butylene styrene. It would have been obvious to one having ordinary skill in the art at

the time that the invention was made that the flexible area as taught by Grim could be made of (SEBS) because this is a material that is flexible and interchangeable with rubber, vinyl or synthetic rubber.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Johnson, Iglesias '351 and Iglesias '504 discloses a splint.
